Subject: MICROSOFT SETTLEMENT

Judge K;

I am a lawyer by training and profession. As I have read the findings of the courts in the Microsoft trials ? and then the PFJ offered by the DoJ ? it strikes me that they are not talking about the same case or the same company.

The fact that multiple courts have found Microsoft guilty makes it very hard to understand the DoJ's essentially hands-off attitude. I understand that this is a Republican administration, but in this case they have simply gone way too far in one direction while forgetting the rule of law in the other.

I look forward to your ruling in this important matter.
